

## Rebuttal

The rebuttal period starts from now, till 00:00am April 29, 2023. Restrict the number of characters of your rebuttal within **5,000**. Submit your rebuttal in PLAIN TEXT format to the email address (datascience.hw@gmail.com) with Title: CSIC 5011: Project 1 Rebuttal.

The following tips of rebuttal might be helpful for you to follow:

1. The main aim of the rebuttal is to answer any specific questions that the reviewers might have raised, or to clarify any misunderstanding of the technical content of the paper.
2. Keep your rebuttal short, to-the-point, and specific. In our experience, such rebuttals have the maximum impact.
3. Always be polite and professional. Refrain from name calling or rude comments, especially in response to negative reviews.
4. Highlight the changes in your manuscripts had you made a simple revision.
